UNIQUE COLONIAL NOTE.

- 585 **New York.** May 31st, 1709. *Five shillings.* Broad note, with ornamented top and autographic signatures of *R Waller, J. D. Peyster, and Robert Lurting.* The paper partly split at folds, otherwise in perfect condition. $5\frac{1}{2} \times 3\frac{3}{4}$ in.

A note for 50s, bearing date November 1, 1709, is described as *unique* in John W. Haseltine's Work on Colonial Paper Money. No mention whatever is made of the 5s. note, nor is it described in any other work, or found in any collection. For these reasons it may properly be assumed that it is not only one of the most interesting, but one of the rarest mementoes of the early Colonial period.
